

COMvenience OfficePortal

SaaS-gebaseerde communicatie en collaboratiedienst voor organisaties van elk formaat. Altijd en overal toegang tot email, agenda's, contactdatabases, belangrijke documenten, projectinformatie via een internet verbinding. Automatische (real-time) back up van opgeslagen data en documenten. Geen IT-ondersteuning benodigd en 100% veilig.

COMvenience OfficePortal maakt het zeer eenvoudig een eigen intranet te creëren voor efficiënte distributie van informatie en documenten met uniforme en veilige toegang voor medewerkers, klanten, partners en leveranciers.

COMvenience OfficePortal kent logging van gebruikers en gastgebruikers. In projectmatige omgevingen kunnen tijdelijke gebruikers worden aangemaakt op het intranet om, bijvoorbeeld, informatie en documenten te kunnen uitwisselen. Door analyse van die gegevens kunnen we mogelijke upsell potentie herkennen.

Product Information

Online Document Management

Free data from the confines of your office walls - get online document management! Store, organize, access & collaborate on company files from any PC, Mac or handheld.

Outlook Synchronization

Unchain Outlook from your local computer! Access & manage your Outlook account any PC, Mac or mobile device & all changes are automatically synched, updated & mirrored.

Web-based Email

No more costly systems for custom company email. Easily set up user@company.com & manage through our feature-rich, spam free mail client on any desktop or mobile browser.

Task Management

Keep on top of multiple projects and tasks with task management. No matter where you or your team are, centralize assignment, management and tracking of tasks.

Intranet Publisher

No expensive hardware or software needed to setup a robust company intranet! Instantly create a thriving intranet with email, contacts, calendars, document management and more!

Discussion Forums

Spur communication and discussion within and across company boundaries - create unlimited discussion forums for teams, departments, partners or customers.

Online Calendars

Scheduling mixups ta-da! Keep your official life in order with online calendars. Organize schedules, set up meetings, sync with Outlook & more - from anywhere on Earth!

Online Contact Management

Managing contacts was never easier! Get on any desktop or mobile browser & create custom contact records, organize in lists, import contacts, sync with Outlook & more!

Mobile Device Support

Online collaboration solutions allow your employees, customers, and partners to share critical business information from anywhere in the world, using any web-enabled handheld device.

Opinion Polls

Make for a truly democratic system with opinion polls. Keep a finger on the pulse of employees, clients, and partners with simple customer surveys, employee polls and more.

Extranet Publisher

Take business relationships to the next level with dedicated extranets for remote teams, partners or clients. Instantly set up extranets with custom brand, look, content and tools.

Add-ons

An effective intranet solution includes professional email, document management, project management, calendaring, and contact management tools.

Here's the lowdown

- **Packed with smart business features.** COMvenciencen OfficePortal includes more than 10 easy-to-use features including Web email, document management and file storage, online calendars, online contact management, and project management tools.
- **Escape from IT overload.** Because COMvenciencen OfficePortal is completely Web-based, there's no software to download, install, or maintain. Just a few clicks and you'll be up and running. Free up your team to focus on other business goals.
- **User-friendly.** The desktop-like user interface makes the COMvenciencen OfficePortal Suite easy to use from the start. You sign-in and you are ready to work. If you need any help we offer interactive tutorials, self-paced on-line training, and technical support to all our customers for free.
- **Road-ready.** You and your authorized employees, partners, or customers can access COMvenciencen OfficePortal from any PC or MAC with an Internet connection using a username and password. It's cross-platform and cross-browser compatible.
- **Pay as you go.** COMvenciencen OfficePortal is available to businesses for a low monthly subscription fee, so there are no big upfront capital expenses to worry about. And you can easily add new members as your business grows. See how our pricing stacks up, feature for feature, against the competition.
- **Big business functionality, small business price.** COMvenciencen OfficePortal offers the kind of online collaboration tools and value that used to be found only in costly corporate products.
- **Online Groups.** Get the right information to the right people at the right times. Define groups by department, interest, etc. The shared workspace of each group gives your team the tools and the online environment to optimize the way they collaborate.
- **A great alternative to Microsoft Exchange and Sharepoint.** Achieve company-wide, connected communication and collaboration without having to buy and maintain costly and complicated server solutions.
- **Peace of mind.** COMvenciencen OfficePortal's virus protection and behind-the-scenes data backup programs keep your information assets safe, secure, and protected. Read more about our state-of-the-art data integrity and security.
